

Green Policy

Rules of environment protection in the college

All the Students and faculties need to abide by the following rules to protect the environment

1. Do not pluck flowers and leaves. If very essential then only with prior permission can pluck the flower and leaves to make the bouquet.
2. Do not throw garbage here and there in the campus, instead put it in dustbins.
3. Wet and dry garbage should be put in separate dustbins.
4. Do not harm the animals and birds in the campus, specially Pigeons if have laid eggs in the classrooms then till the egg is hatched to not stop the pigeon to come in classroom and protect the egg
5. It should be borne in mind that the heavy vehicles will not enter the campus although they are stopped at the main entrance.
6. To spit in and around the campus or in flower pots is strictly prohibited. The girls need to control the habit of plucking and meshing leaves or plucking grass unnecessarily or wasting hand anywhere in campus
7. The campus is trying to become plastic - free campus, so do not use plastic (single used plastic) is strictly prohibited.
